1st of June 2023 (9h30-17h00):

- 09h30 – 09h50 **VR in a multi-disciplinary context- The benefits,** *Presentation by Campus VESTA (Flanders-Belgium)*
- 09h50-10h10 **Virtual training- What VR can't offer,** *Presentation by Robert Fankhänel, Chief Operating Officer HOLOGATE-HGXR (München-DE)*
- 10h10-10h30 **VR Team Training for military special forces,** *Presentation by Frank Jaspers, XR Subject Area Manager, Deutsche Bundeswehr (Germany)*
- 15 min coffee break
- 10h45-12h45 **Scenario and use case for Fire fighters DEMO HOLOGATE (HGXR) and try-outs for all participants**
- Lunch
- 13h45-14h15 **Future of XR Training for First Responders: Enhancing Realism, Measuring Stress & Improving Performance** *Presentation by Jakob Uhl from Austrian Institute of technology (AIT-Austria)*
- 14h15-16h15 **Scenario and use case for Medical first responders DEMO HOLOGATE (HGXR) and try-outs for all participants**
- 15 min coffee break
- 16h30-17h00 **Conclusion and Q&A**
- end

All registered participants will receive a set of documents in a nice glossy folder (leaflet VRPN/ VR training for Police a Provider overview/ Policy maker toolkit), They will have the possibility to do a try out. We do insist that participants would give feedback via a QR code. This will serve the network to grow and the VR company Hologate to adapt their products to the needs of the end-users in the many LEAs working with VR. (Parallel to the program some groups will do only try-outs on 31/5 from 14H; 1/6 9h30 and 13h15)

The aim of the seminar to promote the use of VR and to offer exchange of experience in a multi-disciplinary context to allow first responders to navigate in a VR landscape that evolves very fast.

*VRPN stands for VR and Police Network, SMARTEU stands for (Scottish Multi-Agency Resilience Training & Exercise Unit) <https://www.epcresilience.com> and the EU Horizon project www.med1stMR.eu
